It will probably be a day or two before the positive result can be stated.

Full returns received to-day confirm the defeat of General Fitzhugh Lee by a majority of 600. In the Northern Neck Senatorial District the indications are very decided of the defeat of the Rev. W. W. commenting on the result in New-York, says:

"Kelly has shown his power and has used it without merry, even as Ewing slaughtered Thurman by becoming the regular nonlinee of the party in Ohio, and being defeated. Kelly stays Tilden by running independently and securing the defeat of the regular candidate. Tilden follows Thurman down and out. The election of Cornell, under the circumstances, with the rest of the Republican tacket deteated, is a poor sort of Republican victory. It certainly does not authorize Senator Conkling to rise in the next Republican National Convention and claim that the State of New-York would vote for Grant and for no other Republican candidate, and he must, therefore be nominated. On the contrary, the Republicans of New-York are admonished that if they would not permit their State to become a province of the Solid Senta, they must escape from the Conkling machine, which is victorious only with the cooperation of the Tammany machine. The Democratic party holds us own in New-York better than elsewhere because there it is less tainted with the inflated foolery and fanaticism."

Jas. D. Brady. THE DEBT-PAYERS DESPONDENT.

Later .- The returns received to-day were rather gloomy for the Debt-payers, and at their headquarters here a feeling of despondency prevails. Some of the leaders are ready to acknowledge defeat. They claim to have thirty-nine members certainly elected to the House of Delegates so far, with six others certain though not heard from, and fifteen doubtful, thus giving the Readjusters forty members certain. In the Senate the Debt-payers claim sixteen members certain, with eight doubtful, leaving sixteen certain to the Readjusters. Leading Rendjusters here state that the returns so far continue favorable to them, and that, though they have had some losses where they expected to win, they have had more gains where they did not look for them. They claim twency-five out of forty for them. They claim twenty-five out of forty Senators and fitty-eight out of 100 Delegates. The current sets steadily in favor of the Readjusters, and the indications are that they will certainly have a majority in both houses.

THE DEMOCRATS GENERALLY SUCCESSFUL. A FEW INDEPENDENTS AND GREENBACK MEN ELECTED-THE RETURNS MEAGRE.

JACKSON, Miss., Nov. 5 .- Only fourteen counties have been heard from. Of these, eleven have elected the straight Democratic ticket, with a majority of 6,500. Hinds County will require an official count. Holmes County is conceded to the Greenback party, with the exception of Senator. Marshail County, which is considered the stronghold of Greenbackism, elects the full Democratic ticket by a large majority. The election passed off quietly and a small vote was cast. There was but little enthusiasm, except in the counties where the whites are about equally divided.

Tate County elects Greenback candidates for the Legislature and the County offices, by majorities ranging from 200 to 400.

Miller (Gbk.) is elected Sheriff of DeSoto County over Bynum and Raines, Democrats. The remainder of the Democratic ticket is thought to be elected. Lafayette County gives a Democratic majority of Madison County elects Graves to the Senate, and

# NEW-YORK STATE.

Continued from First Page.

pared with 13,252 in 1878. Hoskins has 75 per cent of last year's plurality in the towns and counties heard from. This proportion throughout the State would give him 57,000 plurality north of New-York and Kings, In the two counties last named the plurality against him is 57,000. This leaves the vote so close that it ooks now as if nothing except the official count can decide. An examination of the returns shows that both in New-York and Kings and in the State at large Wadsworth (Rep.) for Controller and others of his associates run ahead of Hoskins, the popular ity of Mr. Clarkson N. Potter having diminished the vote for Hoskins. Mr. Soule, the Republican candidate for Surveyor, runs behind. There is no means yet for deciding which, if any, of these candidates are elected. Probably the official count alone will do it. There appears to be a chance for the election of several of the candidates on the Republican State ticket, but the vote is very close, and is involved in doubt.

The following vote for Mr. Kelly is reported in o- the counties named :

Cayuga         1,000           Chenning         437           Chenange         125           Clinton         100           Columbia         126           Cortiand         300           Datchess         800           Fulton         7           Genesce         216	New York Nineara Oneida Onondaga Ontario Orange Orlans Oswego	316 42,138 521 675 1,400 400 500 370 1,313	Saratoga Schenectady Steuben Tiona Tompkins Ulater Washington	80 100 250 800 25 800 25 300 1,252
Jefferson 6:0	Otseco Putnam' Rensedaer		Westchester. Total	

The total is 65,673. There are 23 counties to hear from. It is stated that a large vote would have been polled for Mr. Kelly in Albany and some other counties, had it not been that a telegram was received early in the day, saying that he was not running well in New-York City. This rumor was denied in the course of the day, but not in time to save the votes of a large number of the friends of Mr. Kelly.

It is evident from the returns that both parties mustered on election day in very strong force. The Republicans increased their vote quite generally throughout the State, and so did the Democrats The Greenback vote, which amounted to 75,133 last year, almost entirely disappeared. At present it does not clearly appear what became of it.

Cutienra Remedies.

Cutienra Resolvent, a poverul blood purifier, is the only purifying agent which finds its way into the exteniating fluid and thence through the oil and sweat gains to the surface of the salm, thus destroying the poismons elements with which these vessels have been daily charged.

Cutienra, the great skin cure, applied externally, arrests all unnearization motiful growthe which cover the surface of the diseased glands and indices with scale, tiching and irritating humors, specially it removes them, leaving the pures open, health and free from diseased particles of matter.

Thus, internally and externally, do these great temedies act in conjunction, perferoing cures that have assonished the most noted physicians of the day.
